Re: GW Campus Plan Cases #06-11, #06-12 and #06-19

Dear Zoning Commission,

I, Stephen Paik T/A Esteem Cleaners, proudly submits this letter of support for George Washington University's Campus Plan on its Foggy Bottom Campus.

The GWU has engaged the local and city-wide community on its new 20-Year Campus Plan Development Project during a two year process. The plan is to *Build Up, Not Out* will incorporate growth concepts to include a modest increase in density on the campus footprint so as to not develop in the residential community. The plan brings benefits to the community by having more students living on campus as well as more retail in the neighborhood. The university benefits by having more academic space available on campus. The business community benefits by having more customers.

The university and the community together have cooperated in this planning process. I, Stephen Paik T/A Esteem Cleaners, is pleased to support this smart growth planning and economic development in our city.

Sincerely,

Stephen Paik  
President
