

## EXPRESSIONS BOUTIQUE

Dear Commission on DC Zoning:

September 13, 2006

Expressions boutique proudly submits this letter of support for George Washington University's Campus Plan in 2006.

The plan's theme – Build Up, Not out – will incorporate smart growth on the campus footprint so as to not develop in the residential community. The plan puts back on to the tax rolls properties as well as retail and housing increases for the city. The city benefits by increased taxes and the business community benefits by having more customers and business opportunities in Foggy Bottom.

The university and the community have cooperated in this planning process to the benefit of all. Expressions Boutique is pleased to support this smart growth planning and economic development for the District of Columbia.

Sincerely,

Hamid Ghanbari

A handwritten signature in black ink, appearing to read "Ghanbari", enclosed within a large, hand-drawn oval.
