RE: GW Campus Plan Cases #06-12 and #06-19

Dear Chairman Mitten:

The International Monetary Fund has no objection to the George Washington University Foggy Bottom Campus Plan: 2006 – 2025.

The plan appears to be a comprehensive look at the development needs of the campus. We understand that the plan is intended to incorporate smart growth concepts to help ensure that the planned increases in the campus population will not negatively impact the surrounding business and residential community. The added retail in the neighborhood will be an additional amenity for our staff.

Sincerely,

A handwritten signature in black ink, appearing to read "George Brookings".

George Brookings
