Dear Commission on Zoning:

I support the George Washington University's Campus Plan on its Foggy Bottom Campus in 2006 because it will bring more business opportunities to the Foggy Bottom and beautify the community even more.

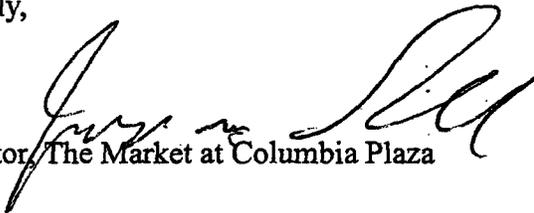

The GWU has been planning the new campus plan with the community for over two years and they have adopted many of the community's suggestions in their plan. The plan's theme - *Build Up, Not Out* - will make smart growth in Foggy Bottom a hallmark of their plan. They will stay on their campus foot print and not build into the community.

The plan puts properties back on the tax rolls as well as increases retail and private housing in the city. Everyone will benefit from this plan - the community, the city and the university.

As a business owner in Foggy Bottom I strongly support GW's new campus plan. I may be reached at 202-223-3517 for further discussion. Thank you.

Sincerely,

Jay Gu
