

February 5, 2007

Dear Sir,

I am writing to express my opposition to the Akrudge proposal for 5220 Wisconsin Ave. I live one block from this site. The proposal calls for a much larger bldg. than the present zoning allows. The suggested amenities are a joke!

We need to talk about a lower density bldg. in a effort to preserve the residential quality of our neighborhood. ^{also leave} 40% of green space. We have had just about ^{all} the development we can handle. This development will increase the traffic and parking problems in Friendship Heights, I suggest development around some other metro stops.

ZONING COMMISSION
District of Columbia
