Subject: In Support of Case 06-31

To Whom It May Concern:

My husband and I are in favor of progress and support the Akridge Project. Have the developers add a little greenspace and parking for each unit. Frankly, we're tired of the neighborhood groups, whether the ANCs or ARD, who seem to be against everything. They thwart projects like this one and numerous other worthy projects like the Sibley Medical Building which is good for our community. Count us in for supporting the Akridge Project.
