

November 15, 2010

DC Zoning Commission:

I am writing in support of Case No. 08-06.

I strongly support the DDOT's recommendations to reduce parking spaces near transit, and in fact I would support going even further in this direction than they recommend.

Having a liveable, walkable community in DC is one of our greatest competitive advantages. Overbuilt parking only undermines this advantage and draws support away from our multi-modal transportation options.

I also strongly support the further investments in bicycling infrastructure.

For cleaner air, long-term economic development, and a better quality of life, this is the right choice.
