Dear Commissioners:

I am writing in support of the current plan for the Giant PUD project on Wisconsin, and to oppose any further changes to the plan proposed by neighbors who were unsuccessful in stopping the project. IN my view, this group -which has been successful in stopping three previous attempts to redevelop the site - is only interested in delaying or stopping the project, and not in any practical changes to the now-approved plan. Giant has been more than accommodating with its planning, and has integrated neighborhood concerns into the plan. At some point, this endless delay tactic has to stop so that the project can get underway. The site is an eyesore at present, the store is worn out and the new project will be a big plus to the neighbors and for Washington as a whole. Please politely tell the petitioners for more change that they had their chances, they had their say, and that this issue is closed. They do not represent even a decent fraction of neighborhood opinion, and a handful of people should not be able to stop something that is overwhelmingly supported.

Thank you
