RE: Opposition to Georgetown University Campus Plan 2010-2020
Case No. 10-32

Dear Zoning Commissioners,

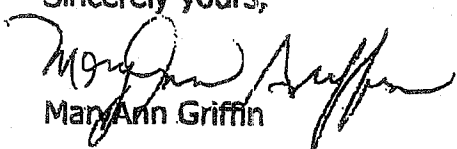

My name is MaryAnn Griffin and I have lived in the Foxhall Village community at 1507 Foxhall Road, NW as a home owner for the past 18 years. I am writing to express my strong opposition to Georgetown University's Proposed Campus Plan.

I strongly oppose Georgetown's proposed loop road. Because the proposed road is not in the scenic easement it is not bound by traffic restrictions on it. This means the new road could carry any traffic including construction, ambulances or through traffic from Reservoir to Canal Rd. It is obvious that the GU master plan calls for this road to be the main feeder of hospital traffic in the future. Nothing will stop them from using this proposed road 24 hours a day.

Further, the increase in the student enrollment without a plan to house all of these students on campus is simply unacceptable! As geographically close neighbors to the university, we have been at the mercy of both the university and its students for decades, enduring loud parties, multiple out-of-state vehicles crowding the alleys, excessive trash, overgrown lawns, un-shoveled snow in the winter and generally cavalier behavior of students. While the university claims to be concerned about town and gown issues their response to our concerns is consistently absent.

As appointed members of the Zoning Commission, representing the citizens of the District, I urge you to vote in opposition of Georgetown University's Campus Plan.

Sincerely yours,

MaryAnn Griffin
