The Honorable Greg Selfridge
Zoning Commission of the
District of Columbia
441-4th Street, N. W.
Washington, D. C. 20001

Subject: Zoning Commission Case # 10-32, Georgetown University's 2010
Campus Plan—Information about Options to the Proposed "Loop
Road"

Dear Commissioner Selfridge:

At the Zoning Commission hearing on May 16, 2011, you asked about measurements with regard to turnaround areas for buses on the campus of Georgetown University.

I should have mentioned at the time directly contacting the creator of two drawings showing bus routes--landscape architect Kent Slowinski at 4505 Dexter Street, N. W. His telephone number is 202-NOW-KENT, and his e-mail address is wksla@aol.com or wksla@aim.com. A member of Advisory Neighborhood Commission 3D, representing Wesley Heights and part of Westover Place, Kent knows Glover Archbold Park and Georgetown University well.

I hope that this information is helpful.

Sincerely,

Ann Haas
ANC3D—9 (Foxhall Village, Colony Hill, and the
Georgetown Reservoir Area)

ZONING COMMISSION
