Re: Opposition to Georgetown University Campus Plan 2010-2020 Case No. 10-32

Dear Zoning Commissioners:

My name is Robert Woolfolk and I Live at 1535 44th St. NW with my wife, Dr. Jane Schubert. We have lived at this address since 2004 when we bought this home in the District. We moved here from Virginia to be closer to work. We have put in many improvements in our home and we are very opposed to this GT plan. It will directly impact our quality of life and damage the environment behind our home. GT is large institution with little regard for residents or other persons outside of their insular world. The approval of this plan will make us seriously consider leaving D.C. Therefore I am strongly opposed to the Georgetown University Proposed Campus Plan.

Sincerely,

Robert W. Woolfolk

ZONING COMMISSION
