RE: Georgetown University Campus Plan

Dear Commissioners,

In regards to the Georgetown University Campus Plan that is being reviewed by the Commission, Capital Restaurant Concepts is in full favor of approving this plan. As a member of the Georgetown neighborhood and business community for over 25 years, we understand the huge influence the University provides, not only to the economy but the vitality of this historic neighborhood is affected.

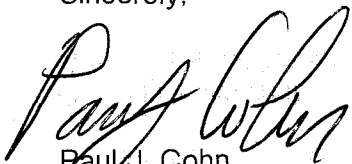

Capital Restaurant Concepts owns and operates 5 (five) restaurants in the Georgetown Community, all in very close proximity of Georgetown University:

Paolo's Ristorante
J. Paul's
Old Glory Barbeque
Neyla's
The Third Edition

The University's faculty/staff, students, and their parents have shown all of our locations great support over the years, and with events like Homecoming, Alumni Reunions, and Parents Weekend - it creates wonderful crowds in this community and great revenue for all businesses. Georgetown University has remained steadfast in its economic support, spending and providing a steady stream of customers for all of the business in the Georgetown.

In conclusion, we support and recommend the Commission to support the proposed Georgetown University 2010-2020 Campus Plan.

Sincerely,

Paul J. Cohn
