AND GENERAL MANAGER

June 14, 2011

DC Zoning Commission  
441 – 4<sup>th</sup> St., NW  
2<sup>nd</sup> Floor  
Washington, DC 20001

Dear Sir:

We are aware that Georgetown University's Campus Plan 2010-2020 is currently before the Zoning Commission. I would like to take this opportunity to provide some background information regarding the important role Georgetown University has had with the Four Seasons Washington. We have shared a vital and on-going partnership since our Hotel opening in 1979. The Four Seasons Hotel has hosted Georgetown University students, faculty, staff and distinguished alumnae for annual commencements, homecomings and graduation events, catering functions, business meetings, social galas and extended hotel stays.

Georgetown University students have also provided operational support to the hotel as summer interns; students have also generously volunteered their time and efforts to contribute to the success of our annual fundraisers – the Golf Fore the Cure and Run for the Cure. They are important community outreach events with all proceeds going to fund research programs at the Washington Hospital Cancer Center.

The University is not only a multi-faceted international institution of learning but a dynamic force in the economic well being of the metropolitan area. We are confident the Zoning Commission will consider this as it takes the 2010-2020 Campus Plan under review.

Respectfully,

ZONING COMMISSION  
District of Columbia

CASE NO. 10-32
