

Adherence to 2000 Campus Plan Projections

Growth from 2000 - 2010 Under Old Averaging / FFTE Methodology

	1999 - 2000 Academic Year	2009-2010 Academic Year
TOTAL	8,105	9,860
Undergraduate Students¹	5,516	5,921
Graduate Students²	2,589	3,939

Notes

1 - Excludes nontraditional students and calculated as an average of the fall and spring semesters.

2 - Under the 2000 Plan, professional students were counted on a headcount basis and Graduate School students were counted on a financial full-time equivalent (FFTE) basis. The FFTE number is determined by assigning a fraction to students who take fewer credits or whose activities, such as thesis research, typically occur off-campus, thus reflecting a more accurate overall impact of graduate students.
