Subject line: CASE #20752
Dear sir or Madam,
As the owner of Bistrot Lepic & wine bar, located at 1736 Wisconsin Ave NW, I am opposing to the project mentioned in the case#20752.
This multi kitchen operation will be right across the street from my restaurant and will create an unusual truck and delivery traffic with excess noise and air pollution. This will adversely affect my streatery business and my guests traffic as well by blocking already sparse parking spaces.
No to mention the additional volume of food trash that will be created that will without any doubt increase the rodent problem we are experimenting already.
Our neighborhood is part of the very quaint and famous Georgetown area and should not allow such an operation to move in.
They are New York based and already operating in union market. Georgetown is not like union market!
It will damage the reputation and image of the other existing small businesses.
I just spent $13k to change my second-floor windows to make sure they are in harmony with the historical Georgetown district.
This new operation will not be in harmony with Georgetown, an historical and residential neighborhood.
Thank you
Cyrille Brenac
