Dear Ms. Cross-Reid,

I am sure you have already heard of some of the problems relating to your case no. 16407, Capitol Hill's Request for Modification. I have myself seen evidence concerning the supposed underground garage, and it does seem your board has been deceived by the developers. The garage is not fit for use, and the evidence is clear.

As a tax-paying citizen living very close to this project, I urge you reopen this case, and carefully consider all the evidence.

Yours sincerely,

Andrew Robison
