PETITION

We, the residents of the Fairlawn Community hereby give notice that we strongly oppose Application 16457 to build on the vacant lot directly behind the Skyland Garden Apartments on 24th Street off of Good Hope Road, SE. The building of 176 rental apartment units would increase the density and further congest the neighborhood creating more traffic, crime and keeping undue stress on our already limited community services that are shared by Wards 6, 7, and 8.

The Southeast Area is the most densely populated area of the city. Development of 176 rental apartment units will have a detrimental impact on our community. We need single-family homeownership.

We, the undersigned members and residents of the Fairlawn community which is located directly across the street from the proposed development have read the above statement and are in full accord with the statement on this petition.
