Dear Sir

The reason for my wanted a deck is; a long time desire for wantering a deck, but couldn't afford one, I was buying my home & with existing bills could not afford one, So after retiring from my job and having less bills I said now is the time; as my neighbors on each sides of me has nice patios to have friends when they choose, I would like to be able to entertain my neighbors and friends, as they have entertained me. It will be for more pleasure I've always wanted, but was unable until now to pursue.

Respectfully yours
Elizabeth R. Jackson
