Zoning Adjustment Application
Use for 521 7th Street, SE

521 7th Street, SE is an existing single family rowhouse. The home owner would like to change the existing laundry room on the second floor into a dining room. In order to make the dining room large enough for a table, etc, she would also like to add on to the existing bump out. The use of the home would stay the same after the renovation and addition, a single family rowhouse.
