RE: The George Washington University Campus Plan
Board of Zoning Adjustment Application No 16553

Dear Members of the Board:
As a resident of Ward 2 in the District of Columbia I do not support the proposed campus plan for the Foggy Bottom Campus of the George Washington University.
I think the plan's inadequacies render it impossible for rational judgements to be made.
It is short on specific plans and documentation for current and future use of GWU properties both inside and outside of current campus boundaries. As decided by your Board before these boundaries should stop at 23rd Street and not on 27th St.
I am also upset about the new Hospital to be built between New Hampshire and 23rd St.Cars ,Ambulances and Delivery Trucks as well as Trash Collectors will cause a great traffic jam at the already congested area.It also will pollute the environment and pollute the air.
What will happen to the old Hospital? It should be torn down and the new hospital should be built there.
For all these reasons,I urge you to reconsider these applications.

Thank you for your attention to this matter.

Sincerely,

Ursula R. Dorpalen

Mrs Ursula R Dorpalen
