Re: G.W.U. BZA CASE 16553

Dear Mr. Trachtenberg:

On behalf of the volunteers and staff of the United Way of the National Capital Area, we would like to thank you for your continuous commitment and support of your local United Way. Under your leadership, George Washington University has continued to be the pacesetter for all of the universities in the District of Columbia. For the past eleven years George Washington University has distinguished itself as the most outstanding University campaign, and received the coveted Silver University Bowl. Over this same period of time George Washington University has raised a total of $1,590,115 in the effort to help meet critical needs and solve some of the community's most pressing problems.

We believe that much of this success can be attributed to your personal involvement in every campaign kick-off and other related events as well as the dedication of the individuals you have delegated to serve as coordinators and key-persons on your campaign team. Your very organized and detailed campaign serves as a model for other local and national universities.

The generous contributions from you and your employees will help to make a meaningful difference in the lives of 1 million people in the national capital area. On behalf of the people who benefit from your generosity and the volunteers and staff of the United Way of the National Capital Area we thank you for helping to improve the quality of life in this great city.

Sincerely,

Kenneth H. Tracy
Loaned Executive
District of Columbia
United Way Campaign
