Washington, DC 20052

Re: G.W.U. BZA CASE 16553

Dear Mr. Wills:

On behalf of myself and all of St. Paul's parishioners who drive to attend services, I write to express our deepest thanks for your permitting us to use the faculty parking lot for spillover from our own lot.

In our own lot and elsewhere in Snow's Court, with the kindly permission of our neighbors and the police, we are able to park 54 cars. But we are a growing parish and especially with the reconstruction of K Street between 24th and 25th Streets, we find we frequently run short of parking spaces. Thus, your permission to use the faculty parking lot is an act of neighborly generosity that we greatly appreciate.

St. Paul's Parish is pleased to be a participant in The Foggy Bottom Business and Institutional Association and appreciate George Washington University's initiative in organizing that group.

Please call Atlee Shidler, our Parking Director, at 202-333-3022 if we in any way abuse this privilege or if there are dates when you wish us not to park in the faculty lot.

Sincerely,

Andrew L. Sloane
Rector

Cc: Stephen J. Trachtenberg, President
