PETITION IN OPPOSITION TO THE GEORGE WASHINGTON UNIVERSITY CAMPUS PLAN BEFORE THE BOARD OF ZONING ADJUSTMENT

The below signed individual(s) opposes the George Washington University Campus Plan for 2000-2010 being presented to the Board of Zoning Adjustment. I/We request that the Board of Zoning Adjustment not approve the plan as presented and further require that George Washington University revise the campus plan to resolve the negative impacts of expanded enrollment, unregulated parking, and property purchases. On behalf of the Foggy Bottom/West End community, the West End Citizens Association recommends that the below listed items be incorporated in the campus plan:

1. **A plan for the revision of the enrollment program for undergraduate and graduate students to provide a controlling cap which would correspond to the availability of housing within the campus boundaries.**
2. **A parking program which (1) specifically forbids freshmen and sophomores from bringing personal automobiles to the campus area, (2) requires charging the monthly commercial "going-rate" for student and employee parking spaces within the campus boundaries, and (3) implements an employer-provided or subsidized public transportation program.**
3. **Before there is any formalized, legal transaction including notice-of-intent engagements, George Washington University be required to notify the Board of Zoning Adjustment, the Foggy Bottom/West End Advisory Neighborhood Commission (ANC-2A), and the Ward 2 Council Member of any additional properties to be purchased or leased outside of the campus plan boundaries so it can be determined if there are any negative environmental or economic impacts to the neighborhood.**

I/We believe that a realistic and reasonable campus plan for the George Washington University cannot be reviewed and considered for approval without the above listed items.

The below signed individual(s) opposes the George Washington University Campus Plan for 2000-2010 being presented to the Board of Zoning Adjustment. I/We request that the Board of Zoning Adjustment not approve the plan as presented and further require that George Washington University revise the campus plan to resolve the negative impacts of expanded enrollment, unregulated parking, and property purchases. On behalf of the Foggy Bottom/West End community, the West End Citizens Association and the Foggy Bottom/West End Advisory Neighborhood Commission (ANC-2A) recommend that the below listed items be incorporated in the campus plan:

1. **A plan for the revision of the enrollment program for undergraduate and graduate students to provide a controlling cap which would correspond to the availability of housing within the campus boundaries.**
2. **A parking program which (1) specifically forbids freshmen and sophomores from bringing personal automobiles to the campus area, (2) requires charging the monthly commercial "going-rate" for student and employee parking spaces within the campus boundaries, and (3) implements an employer-provided or subsidized public transportation program.**
3. **Before there is any formalized, legal transaction including notice-of-intent engagements, George Washington University be required to notify the Board of Zoning Adjustment, the Foggy Bottom/West End Advisory Neighborhood Commission (ANC-2A), and the Ward 2 Council Member of any additional properties to be purchased or leased outside of the campus plan boundaries so it can be determined if there are any negative environmental or economic impacts to the neighborhood.**

I/We believe that a realistic and reasonable campus plan for the George Washington University cannot be reviewed and considered for approval without the above listed items.

**PETITION IN OPPOSITION TO THE
GEORGE WASHINGTON UNIVERSITY CAMPUS PLAN
BEFORE THE BOARD OF ZONING ADJUSTMENT**

The below signed individual(s) opposes the George Washington University Campus Plan for 2000-2010 being presented to the Board of Zoning Adjustment. I/We request that the Board of Zoning Adjustment not approve the plan as presented and further require that George Washington University revise the campus plan to resolve the negative impacts of expanded enrollment, unregulated parking, and property purchases. On behalf of the Foggy Bottom/West End community, the West End Citizens Association recommends that the below listed items be incorporated in the campus plan:

1. **A plan for the revision of the enrollment program for undergraduate and graduate students to provide a controlling cap which would correspond to the availability of housing within the campus boundaries.**
2. **A parking program which (1) specifically forbids freshmen and sophomores from bringing personal automobiles to the campus area, (2) requires charging the monthly commercial "going-rate" for student and employee parking spaces within the campus boundaries, and (3) implements an employer-provided or subsidized public transportation program.**
3. **Before there is any formalized, legal transaction including notice-of-intent engagements, George Washington University be required to notify the Board of Zoning Adjustment, the Foggy Bottom/West End Advisory Neighborhood Commission (ANC-2A), and the Ward 2 Council Member of any additional properties to be purchased or leased outside of the campus plan boundaries so it can be determined if there are any negative environmental or economic impacts to the neighborhood.**

I/We believe that a realistic and reasonable campus plan for the George Washington University cannot be reviewed and considered for approval without the above listed items.
