STATEMENT OF ELEANOR M. BECKER
Before the Board of Zoning Adjustment
September 26, 2000

I am Eleanor M. Becker, I reside at 2528 I Street, N.W., and I am Vice President of the Foggy Bottom Association, the largest citizens' association in the Foggy Bottom/West End area. During most of the Campus Plan discussion time I served as FBA president.

Earlier witnesses have laid down the major issues which concern Foggy Bottom residents; my comments, I hope, will refute less cosmic but still important information provided by the university in its written and oral testimony.

For example: on page 8 of its December 28, 1999 filing, GWU congratulated itself for "preserving and enhancing the natural beauty of Foggy Bottom" and "maintaining the cleanliness of Foggy Bottom streets." It would have been more accurate to claim enhancing the beauty of the Foggy Bottom CAMPUS, not all of Foggy Bottom,. Moreover, the need for at least part of the student cleanup, which we do appreciate, is the result of some of the students living off-campus who do not clean up after themselves.

Again, on page 16, GW outlines a series of meetings with the community beginning in February 1999. Attached to my statement are two documents pertaining to the community dialogue meetings referred to by the University. Members of the Foggy Bottom Association Executive Board, officers of the West End Citizens Association and the ANC-2A Commissioners were invited to these meetings which began in February 1999. The first document is a letter dated May 11 to Bernard Demczuk of GW withdrawing the participation of FBA because "To date, GWU has imparted no information about the stated purpose of the meetings, the Campus Plan proposal." The content of the presentations seemed to us to be pure propagandizing. That letter was sent after the third meeting.

The second document is another letter written on July 3, reiterating and reinforcing our decision not to participate until concrete information was provided. The ANC soon broke off the meetings as well -- for the same reasons. These are submitted to counteract the oft-expressed claims by the University that meaningful dialogue continued over some months. Those claims are not true.

I also wish to point out an illustration I find disturbing, and I refer to the fourth page of GWU's April 26 presentation, a page entitled "Ownership." At the upper left of the diagram are shown Squares 40 and 41, undivided, showing GWU's alleged ownership of the former 2300 block of I Street. It is currently a pedestrian mall, but I am unaware of any "ownership" of that former street by the University. It has the use of that area, maintains plantings and benches under an agreement with the city, but it does NOT own it. I believe the map to be somewhat deceiving, perhaps not intentionally. I would hope that GWU would correct that illustration.

And as a volunteer at the School Without Walls, I paid close attention to Mr. Barber's statement last time that GWU's hoped-for plans for that site had the approval of the school's principal. In a conversation with me last Friday, the principal, Mr. Bedden, agreed that he said he would favor it if the end result is a better school for his students. He was not aware, however, of plans to

Bernard Demczuk
Assistant Vice President,
Government Relations
The George Washington University
714 21st Street, N.W., 3rd Floor
Washington, DC 20052

Dear Bernard:

The June meeting time chosen coincides with an FBA 40th Anniversary event -- a presentation by David Anderson of the Gelman. So, I will not be able to attend.

In addition, the FBA Executive Board has authorized me and any other FBA representatives to withdraw from this dialogue. Unfortunately, we feel they are serving no one's purposes but GWU's. To date, GWU has imparted no information about the stated purpose of the meetings, the Campus Plan proposal.

We will participate again when and if you and GWU are prepared to give us solid information about GWU's proposal. Further, such information should be provided to us prior to any meetings so there will be time for advance study.

Otherwise, these meetings are hopelessly unproductive and the time can better be spent on other things.

Sincerely,

Eleanor M. Becker
President

24th and L Streets, NW
Washington, DC 20037

July 3, 1999

Bernard Demczuk
Assistant Vice President,
Government Relations
The George Washington University
714 21st Street, N.W.
Washington, DC 20052

Dear Bernard:

I am responding to your letters of June 4, June 17 and June 28. On June 17 you wrote thanking me for attending or sending someone to attend the June 10 meeting. As you well know, I did neither; nor should we be thanked for our "continued participation," as the Foggy Bottom Association had decided earlier not to participate until GWU provided "solid information" about its proposals.

That letter also asked us to share our specific requests, ideas and proposals; since the dialogues began, our requests over and over again have been for GWU to advise us of their ideas for the campus plan. As far as I can tell, the response to those requests has been nil.

I believe, Bernard, that FBA's decision to withdraw was validated by the June 10 meeting. The agreed subjects were student enrollment and student housing; it was reported to me that very little information -- specifically not a single set of numbers -- was reported to the group about enrollment or housing. And of course it was at this point that unbeknownst to the community representatives, GWU was buying the Howard Johnson and three other Virginia Avenue buildings, and increasing the enrollment of freshmen by a substantial percentage. So much for dialogue!

Both you and I know, as does the entire group you have invited to the dialogues, that we want information on GWU's plans for the current hospital site if the new hospital is built; for the "new residence hall" reported several weeks ago in the Hatchet: and for Square 43 where GWU has contracts on three more houses outside the campus, and where the remaining homeowner has already been "advised" of the consequences if he does not sell to GWU.

If the purpose of these meetings is to exchange information with the community, they rate a failing grade. Moreover, if another purpose is to show to the BZA that you have consulted with the community, they deserve another failing grade and any such claim will be vigorously contested by most of those attending these unproductive meetings.

(over)

Hence, we will not be present for the July 15 meeting. The subjects are inviting, but my guess is that it will be heavy on land use concepts and lighter than air on land use plans. Perhaps, when it is demonstrated that "solid information" is on the table, we will feel it is worthwhile to attend.

Sincerely,

Eleanor M. Becker
President

FBA Executive Board
ANC-2A Commissioners

house 650 students there, and actually wondered out loud how the site could accommodate that many.

And finally, I wish to place into the record the names of 502 residents who signed and mailed large postcards supporting the ANC and FBA's position on the campus plan. Here are the cards collected by the Foggy Bottom Association over the past several months. We also received FOUR from residents who did not agree. The list of the 502, plus the comments of the four, are attached to my statement.

Some of these were signed at meetings, but the majority of signators read our flyer (also attached) and mailed the cards to us. Lest your reaction to these signatures be less than overwhelming, let me assure you there are few issues in this downtown neighborhood which can elicit such a large response -- especially when they had to take the trouble to attach a 33-cent stamp before mailing. That is most unusual for folks in Foggy Bottom. The next best effort I have seen is getting 70 people out to protest the building of the GWU hospital approved by this body last year.

I thank you for your attention.

Attachments:

1. Two letters to Bernard Demczuk dated May 11 and July 3, 1999
2. "For Foggy Bottom" flyer
3. List of signators to FBA statement, May-September, 2000

The Foggy Bottom Association urges you to be:

FOR FOGGY BOTTOM!!

HOW?
By signing the enclosed postcard that expresses your concern about the contents of GWU's proposed Foggy Bottom Campus Plan for Years 2000 through 2010. We urge you to please sign and mail the postcard as soon as possible.

WHAT IS A CAMPUS PLAN?
DC zoning regulations require universities located in residential zones to file a campus plan with the DC Board of Zoning Adjustment (BZA). GWU's proposed Foggy Bottom Campus Plan represents its projections and analysis of its short/long-term needs for the years 2000 through 2010.

WHAT IS THE BZA'S ROLE?
The BZA's role is to approve, not approve the Campus Plan or to approve it with conditions.

WHY SHOULD I BE CONCERNED?
There are a number of provisions in the plan that would negatively impact our neighborhood in a major way. For example:

1. There is no effective review and regulation of GWU's acquisition of property outside the formal campus boundaries. GWU bought 36 properties outside its boundaries, **but within Foggy Bottom**, during the term of the current plan (1985-2000), including apartment buildings, residences, and hotels. Resident tenants were displaced and many properties were removed from the DC tax base. GWU states in the draft plan that it intends to continue these practices and does not provide for any review or regulation of its acquisitions. (The DC Comprehensive Plan states that loss of housing stock because of the University's practices "is a critical problem in Foggy Bottom/West End," and that "adjustments shall be made...to campus plans to address these problems.")

2. GWU plans to increase student enrollment but does not have the facilities on campus or offer a plan to house the additional students. The proposed plan would

over...

allow 3,364 students to be added to the Foggy Bottom campus without requiring that most or all of them (especially undergraduates) be housed on campus.

3. The plan does not provide for adequate parking. Despite providing for 750,000 square feet of new space and 3,364 new students, the proposed plan retains the 15 year-old minimum of 2,700 on-campus parking spaces. (The DC Zoning Administrator recently found that GWU is not providing even that minimum number.)

4. Traffic congestion. The plan proposes impediments to traffic, such as mid-block pedestrian crossings, and increases in student, staff and faculty populations, but there is no requirement that traffic congestion be limited to any reasonable or enforceable standard.

WHAT IS THE STATUS OF THE PLAN? SEPT. 13,
BZA will hold a public hearing on [redacted]. It will hear reactions to GWU's Campus Plan from public agencies, ANC-2A, community groups (including the Foggy Bottom Association), and neighborhood property owners.

HOW WILL MY CONCERNS BE BROUGHT TO THE BZA'S ATTENTION?
Postcards signed by you and your neighbors will be used by the FBA at the hearing as evidence that neighborhood residents are very concerned about the continuing encroachment of the University into the neighborhood and the negative impact it would have on the lives of Foggy Bottom residents.

Protect Foggy Bottom. Preserve Foggy Bottom.
Be FOR FOGGY BOTTOM!!

PLEASE SIGN AND RETURN THE POSTCARD!

The following four cards were received disagreeing with the community position:

"I was not provided a card for voting. However, as a paid member of the Foggy Bottom Association, I want to register my support of the campus plan of GWU."
Ronald Lehker, 2440 Virginia Avenue

"I am a Friend of West End LIbrary but not against GWU. It is good to have a university in the neighborhood. Why are people always against something?
Beatrice L. Buchen, 800 25th Street

"As a resident of the Foggy Bottom/West End area, I totally disagree with the community's position.... The Proposed GWU Campus Plan adequately addresses the problems...."
Christine McGuire, 2450 Virginia Avenue

"I support the Campus Plan. I'm a Foggy Bottom Association member but I've never been asked about this. FBA does not represent me."
Catherine S. Long, 2500 Virginia Avenue

Signators to FBA Statement, May-September, 2000

502 signatures
4 in opposition

As a resident of the Foggy Bottom/West End area, I am in full support of the community's position, as represented by the ANC and FBA, that the proposed GWU Campus Plan does not adequately address the problems associated with increased student enrollment, parking, traffic and congestion as well as the University's acquisition of residential property outside of the campus boundaries.
