Dear Members of the Board:

We are writing this letter in reference to the George Washington University Campus Plan, Board of Zoning Adjustment Application No. 16553.

We would like to voice our support for the university's application for an adjustment. The Board of Advisors of the Alpha Pi Chapter of Tau Kappa Epsilon Fraternity has been close neighbors with the university for almost 65 years. Although the current board members do not hail from the first years, we as a corporation have owned property in the Foggy Bottom community for almost that long. At our meeting of March 27, 2000, we voted to support this initiative.

As outlined in the plan, the University commits to numerous beneficial projects while honoring caps and other restrictions. In fact, given the proposed open space improvements and increases in on-campus housing, the plan definitely in the best interests of all concerned. The Campus Plan will allow the university to continue its significant role as a leader in keeping the Foggy Bottom community a place where students such as our chapter members can live and learn in a supportive, yet urban, environment.

We urge your approval of the application.

For the members of the Board,

RBSkadowski
