My name is Dr. Henry Fox. I am a cancer specialist practicing in the District of Columbia and the parent of two children attending the Jewish Primary Day School.

My patients come from Shepherd Park and every other neighborhood in the District. As a private practitioner, I am an employer in the District of Columbia. I run the department of internal medicine at Columbia Hospital for Women--an unpaid job--and I provide emergency medical care to the indigent through Columbia's clinic system. But I would not be here--not for my patients, and not for my employees-- if my children could not get a Jewish education here.

Remember that JPDS is the ONLY Jewish Day School in the District.

It is unique in this city.

This school is an employer in the District and attracts employers, such as myself.

Parents at the Jewish Primary Day School are accustomed to following traffic plans. We have been doing it at our Quebec St. location for many years. The plan for 16th St. is reasonable, and I will be happy to follow it. We are well aware of the sensitivity of the traffic issue. I also know that we will be watched, if not photographed. This will not be our last visit to the BZA, and we have a reputation to protect.

I would be happy to sign a contract regarding traffic procedures. But I will follow the rules whether or not there is a written contract.

We have never been asked to carpool. I don't carpool but, if asked, I would be happy to. As you know, this will reduce the traffic load.

I thank the Board for your kind attention, and I urge you to find in favor of the application.

Henry Fox. M.D
