Dear Ms. Reid.

Just to add a personal note to this strong & well worded objection to the proposed plan for the Field school, I want to point out that though I don't want to be identified simply as a NIMBY (not-in-my-back-yard) in trying to fight progress as inevitable as the change of the moon, establishing a school such as the one proposed on Foxhall Rd is probably a good idea since education produces little effect in the US these days; However it is certainly not a good idea to locate it in this area. Fancy 8 schools so close together!

What is not surprising is that a proposal of this kind is rushed through in a manner such as this. (That is the way these things are done so that few people know about it, and fewer can marshall forces to oppose it.) I can only repeat the urge to reject such an application.

Sincerely, John P. Halford.
