Re: Board of Zoning Adjustment Application for The Field School
Foxhall Road, NW (the Former Cafritz Estate) Case #16559

Dear Commissioner Reid:

The purpose of this letter is to express my strong support for the application of The Field School to establish a private school on the former Cafritz Estate located along Foxhall Road, NW. I believe The Field School has an excellent traffic plan that is based upon careful, accurate traffic studies, and the development plan will cause no undue hardship to the surrounding community.

The Field School has, from the onset of the design process, reached out to the community. Consideration for the immediate neighbors has resulted in a plan for school buildings, athletic facilities, parking areas, and entrances to the school facilities that will make good use of the property. While I understand that the community is concerned about the impact of the school on traffic in the area, the traffic management plan proposed by Field has been carefully constructed and will serve the interests of the both the school and residential communities. As an integral part of the Foxhall neighborhood, The Field School will continue to meet with neighborhood representatives to address issues of concern, traffic or otherwise.

The Field School is an outstanding educational institution whose continued presence in the District of Columbia should be encouraged. As a District resident, I believe that excellent schools serve the best interests of the entire community. I thank you for your attention to this letter, and ask that you approve The Field School's application.

Sincerely,

Sally Easman
