RE: Case #16559, Field School – Application for use of Foxhall Road NW Property

I wanted you to know of my strong support for the Field School's application noted above. In my judgment, the plan proposed by the school will not create unacceptable conditions for the surrounding community, and will not impact significantly on the immediate neighbors of the site.

For many years, the Field School has reached out to its community, wherever it has been located and indeed in this instance contacted the community in the early design of the space. Rather this use of the property than a large development that might really impact adversely on the neighborhood.

Parking is always a problem in this city, but the school's management plan seems to have taken this into account in its planning.

As a DC resident, it is important that we have high caliber schools like Field; they have touched and continue to touch many, many students who have gone on to do well, and have stayed to contribute to this community.

I urge you to approve this application.
