Re: Proposed Board of Zoning Adjustment Application
For The Field School to be Located Along Foxhall Road

Dear Board of Zoning Adjustment Commissioners:

I am writing this letter to evidence my support for the Field School's proposed relocation to the former Cafritz Estate located along Foxhall Road, N.W. I have reviewed the proposed plans for the campus environment that the Field School intends to develop on the site and I find it to be a very appropriate and inviting campus environment that will serve the neighbors and the students very well. I further believe that the proposed Field School campus has been designed in such a manner that it will not be a detriment to the surrounding neighborhood due to the substantial tree buffer that will remain on the site and the placement of the school buildings towards the center of the site.

I have also paid great attention to the School's discussion of how it intends to address the traffic issues along this part of Foxhall Road. I believe that the School's plan to have only right turns coming out of the southern entrance to the school and the prohibition on left turn lanes out of the School in the morning is a sound plan.

Once again, I want to express my strong support for the Field School's proposed move into our neighborhood. I hope that the ANC will support their application.

Sincerely,
Frances E. McFall

P.S.
My son is a Field School graduate and I strongly believe that this school has a unique mission to bring to the DC community and its program can be broadened and enhanced by the excellent new location.
