To whom it may Concern:
re Application # 16559
The Field School

As a long time resident (20 years) of 2200 Foxhall Road, I am writing to strongly oppose the application for an exception for the Field School.

The TRAFFIC is already terrible and we do not need more students in this residential neighborhood.

I am surprised that the school would propose endangering the lives of its students by placing them in the line of

dark dangerous traffic. It seems very irresponsible to me. Foxhall is a main thoroughfare already over used.

It is not fair to the present residents to further tax the roads with a daily influx of children and I do not think it is fair to the children who will be roaming around in such a potentially dangerous situation.

Please do not grant this exception. Just say NO
