Re: Board of Adjustment Application for the Field School
Foxhall Road, NWA Case # 16559

Dear Commissioner Reid,

I am writing to express my support for the Field School to establish a private school on the former Cafritz Estate located on Foxhall. I live in a private residence on Hoban Road, one of the roads which allegedly would be most affected by the school. I have reviewed the schools traffic plan and believe it will result in no undue hardship to the enjoyment of my home.

I realize that when the traffic plan is implemented unforeseen problems may arise and need adjustment. However having had a son attend the school for five years I am very much aware of the integrity of the schools leadership, teachers and students. I have no doubt that the school will honor its pledge to work to adjust it's plans if unforeseen problems arise in order to provide the best possible situation.

One of the major complaints is the problem that will occur in the construction of the additions to the school. Even if this application is rejected that property is going to be developed one day most likely something along the lines of the development of the old Rockefeller estate across the street. Such will cause equal if not more problems during construction. Denying the Field School"s application would do nothing to avoid inconveniences caused by construction. It would simply delay such. I believe the school will be a great addition to our area and to the city as a whole. I urge your approval of this application..

Sincerely,

C.D. Ward
