Re: Application for the Field School for Use of the Cafritz Estate as a School Case # 16559

Dear Ladies and Gentlemen of the Board:

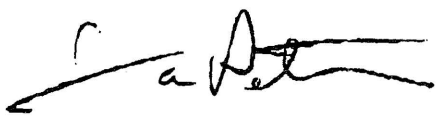

I support the application of the Field School to use the Cafritz property as a school. I feel that the use of the property for a school would enhance the community and would preserve the environmental integrity of the adjacent National Park.

I am opposed to the subdivision of the property for residential development. Building 40 to 50 houses on the land would inevitably adversely affect drainage, damaging the park.

I am satisfied with the Field School's cooperative attitude and willingness to address community concerns over traffic in the neighborhood and on Foxhall Road.

I do agree that traffic on Foxhall Road is a major concern and has been for a long time. I believe the Field School is demonstrating a willingness to do whatever is within its power to respond to this problem.

I hope that the District Government, the Field School, and the community can resolve the traffic issues, because I strongly believe that the School will be a good neighbor. I also believe it is in the best interests of the District to retain within its borders a school of the caliber of Field. The District would be the loser if the school were forced to move to Maryland or Virginia.
