Dear Ms Reid: Re: Case #16559 – Field School

We are writing to express our opposition to an exception to allow Field School to move into the former Cafritz estate on Foxhall Road.

Our organization, Neighbors for a Livable Community (NLC) was formed in the eighties to meet the adverse impacts which threatened our neighborhood under the then proposed campus plan of American University. We succeeded in working out a plan much better for both university and residential community.

We have continued our involvement in such kinds of concerns, working with other neighborhood groups in the city. We are deeply concerned about the continuing expansion of various educational institutions into our residential areas.

The proposal of Field School to move onto Foxhall Road is inappropriate to a narrow winding road which is already highly overused and adversely impacts the residences in that lovely area. The additional traffic and turns into and out of the school , many of them at rush traffic hours, would substantially increase the noise, congestion, pollution and danger along the road.

We strongly urge the Board deny this application.

Yours truly,

Priscilla Holmes
