Re: Case #16559

Dear Commissioner Reid:

I want to express my strong support of the application of The Field School to establish a private school on Foxhall Rd on the former Cafritz Estate. Knowing Field and its concern for the community, I believe their presence in that community will only be positive and not have any detrimental impact on the neighbors adjacent to the site.

I know Field has taken steps to reach out to the community in the design phase of the proposed Field building, fields, entrance and exits. The final plan 'makes' excellent use of the space, does not create any objectionable conditions in the surrounding community and will ADD to the surrounding neighborhood.

The traffic management plan is especially

BZA Case No. 16559 Exhibit No. 349

Board of Zoning Adjustment
District of Columbia
CASE NO.16559
EXHIBIT NO.349

brilliant — it will work for both the parents & students and residents of the neighborhood. The School has met & will meet on a regular basis with representatives from the neighborhood to discuss issues of concern.

Field will be a terrific neighbor.

As a resident of the District of Columbia, I believe that keeping institutions like Field in the city is in the best interests of the entire community. Thank you for your attention.

Please approve The Field School application.

Sincerely,

Meg Steele
