Re: Case # 16559 — The Field School, Foxhall Road

Dear Board of Zoning Adjustment Commissioners:

I write to express my strong support for the application of The Field School to establish a private school on the former Cafritz Estate on Foxhall Road, N.W.. The development plan proposed by The Field School will create no objectionable conditions to the surrounding community, nor will it create any detrimental impact on the immediate neighbors.

The Field School is to be commended for reaching out to the community early in the process of designing the site plan. The result is a plan that will create a lovely environment for the School's students, faculty, and parents and for the surrounding neighborhood.

One of the issues of greatest concern in the community has been the impact that this project may have on the traffic patterns in the neighborhood. I concur with the School that after traffic signals are installed at the intersections of Whitehaven Parkway and W Street, the traffic situation will improve and the proposed entrances to the School will cause no additional traffic problems.

I appreciate your consideration of this letter, and I request approval of the application of The Field School.

George M. Ingram
