RE:BZA Application #16559
The Field School
Minority Report

Dear Ms. Pruitt Williams:

As the ANC Commissioner for 3D06, the Single Member District in which the Field School is proposing to locate its new facilities, I want the BZA to know that I voted against their application. I have serious concerns about traffic safety and congestion on Foxhall Road. I have received a copy of the "Neighbors Against Foxhall Gridlock" report by their traffic expert, Fred R. Hanscom, which clearly points out the safety and congestion issues. This report confirms my concerns about these issues. I also feel that any warning signals, such as the 15mph signs on Foxhall Road, will have no affect on the commuter traffic. The gridlock that will occur will only anger the commuters and divert them to our residential streets.

The Ward 3 Comprehensive Plan clearly states that any "infill" projects should not worsen existing traffic conditions. This is not true in respect to the Field School. Foxhall Road is already a heavily trafficked thoroughfare and allowing Field School to locate in this residential area will not improve the situation.

I will be out of town on May 10, 2000 and will not be able to present the opinions of the majority of my constituents to the BZA. I am, therefore, sending you this letter advising you that the neighbors most affected remain in opposition to the Field School's application for a special exception.

Most Sincerely,

Ann F. Heuer
ANC 3D06 Commissioner
