RE: Application No. 16559, The FIELD SCHOOL

Dear Members of the Board:

I fully support The Field School to locate at the Cafritz Property on Foxhall Road,NW. As a current parent, I requested to take part in the neighborhood process when Field School first announced its intentions to relocate. I wanted to be sure that the integrity of the neighborhood to which the school intended to move was upheld and that the impact on the neighbors would be minimal. As a neighborhood activist, I have spent a long time working with schools (The Washington International School and The Corcoran School) and the campus plan process of Georgetown University.

I am happy to report that, through my eyes, The Field School has bent over backwards to please its immediate neighbors and has created a traffic plan that will work, knowing, it can be adapted after operation begins. These are good people whose integrity and vision not just for the school but for the whole neighborhood should not be overlooked.

I urge you to grant the requested variance that is before you.

Sincerely,

Bonnie Hardy
