I have been a Georgetown homeowner for over 40 years and resided at the above address almost that long.

Georgetown University's failure to live up to their verbal and written housing commitments and their expansion is a grave cause for concern.

We have been subjected to student noise from N street and the 3200 through 3500 block of Prospect Street during early morning hours. Their trash, particularly on Prospect Street, has been offensive. The traffic backup from and to the university is notorious and dangerous.

Over the years I have personally experienced Georgetown's lip service rather than enforcing control over their off-campus resident students. To further inundate the residents with more students is ill conceived and further encroaches on our right to quiet enjoyment of our residences.

The vast majority of residence owners in Georgetown reflect this feeling

Sincerely,

CC Jack Evans
CC CAG
