Subject: Tucker Day Care Center
~~#16510~~ 16570

It is indeed a pleasure to write this letter to comply with the request for the zoning for the Occupancy Licence for the Day Care at 3215 11th Place, S.E.

Ward 8 is a growing community and we are delighted to have such a service come to our area which will enhance the well being of our children and will also given the working parent(s) the peace of mind so necessary for anyone working. With the proper teaching and guidance of these little children, we will begin to see another generation of younger come up with a strong foundation. While visiting the Center for several hours and typing this letter, I did get the chance to observe the movement and activities of the Center. The staff of 6 were extremely gentle and caring. They also disciplined the children and gave the professional and motherly attention to each child. I observed the nap time and found that each child rested well in a clean environment. The babies laughed, cried and played as normally healthy children would do. The library of books, toys, games and support was found to be in order. The outside appearance is an added attraction to this street an the surroundings.

I met the six (6) staffers and watched them interact with the children. I strongly support the request for this Center and would approve the services and the needs being met for all involved.

I say, if God be for you who should be against you. God is for the children and he will guide Mr. and Mrs. Tucker to do what proper and right for the well being of these children. This should be considered as a concerned and a big part of the reviltilization for Ward 8. Thank you for this opportunity to reach out for Children.
