Re: Zoning Application no. 16576

Gentlemen:

I have reviewed the proposed plans for the addition to 5212 Upton Terrace, NW, Washington D.C. I find the proposed design acceptable and in keeping with the neighborhood's lot density and architecture. I fully support the project, the variance request, and I hope that the Board will approve the request. I should add that I live near 5212 Upton Terrace and am quite familiar with its relationship to the adjacent park land.

Sincerely,

Ernest N. May, jr.
