Re permits to build a roof deck on the detached garage of 2119 S. St. N.W.

I live directly across the alley from 2119 S. St. and I would be pleased to have a roof deck on top of the garage. It would improve the look of the alley and would enhance the view from the back of my house.. Many houses on the alley have roof decks and the plantings clearly improves the tone of the neighborhood. I urge you to approve this plan.

Thank you for your attention.

Sincerely yours,

Anne Stephansky
