In a letter of opposition it was stated that I had not discussed my plans or effects of the addition to the garage in the rear of 623 Mellon Street, SE Washington, DC 20032. Below you will find signatures of neighbors with whom I discussed my plans and the effect it would have on several occasions. These neighbors have signed this letter willingly and with no opposition whatsoever. They also fully understand the intentions of the additions and know it is not being done for monetary gain or addition of more residents as I have previously been accused.
