Please be advised on or about Thursday, June 11, 1998 at a regular meeting of Advisory Neighborhood Commission 4B, after proper and adequate notice to all whom might be affected, this commission consisting of ten commissioners, of which six were present, constituting a quorum made inquiry into the above referenced matter. Said inquiry included but was not limited to the concerns, if any, of residents who might be affected, the advice and guidance provided by Ms. C. Lillette Green Campbell a representative of The Bridges Academy and a review of numerous documents filed herein.

The Bridges Academy's request to construct modular classroom buildings to expand it's mission, philosophy, vision and objectives in the District of Columbia is currently being considered by the Zoning Commission for the District of Columbia. This request to increase classroom and the play area for students of the Academy would be a positive contribution to the revitalization of our community and the Georgia Avenue corridor.

We the residents and members of ANC 4B request that the Zoning Commission For The District of Columbia take into consideration the additional asset this enlarged Academy will

be to the District and it's residents and grant The request of the Bridges Academy.

Very Truly Yours

Vannie Taylor III
