INSTRUCTIONS TO STRUCTURAL ENGINEERS FILING STRUCTURAL PLANS UNDER THE PROVISIONS OR SECTION 111.5.1.1 OF THE CONSTRUCTION CODES SUPPLEMENT OF 1992 AS AMENDED

---

1. Certifications will be accepted only from registered professional structural engineers certified by the District of Columbia Board of Registration for Professional Engineers.

2. The Director, DCRA, may in his discretion, approve the structural portion of the plans for the erection or alteration of a building or other structure.

3. Applications with certified structural plans will be assigned for processing in chronological order along with other applications and plans. They will not be processed as a separate group and certification shall not be used as a means of expediting an application through the Department.

4. Portions of plans not certified will be checked as usual.

5. Each sheet of the structural plans shall bear the signature of the certifying engineer under the following statement: "Structural plans certified as provided in Section 111.5.1.1 of the D.C. Construction Codes Supplement of 1992 as amended to date," together with his seal firmly impressed or stamped thereon.

6. Those structural shop details and drawings necessary to complete the structural plans and design shall also bear the signature and seal of the certifying structural engineer.

7. Structural plans so certified shall be on separate sheets from those showing other phase of work, shall be complete in every detail when filed and certified, and shall comply with all the provisions of BOCA Basic National Building Code/1990, as amended by the D.C. Construction Codes Supplement of 1992, as amended, which provisions shall include, but shall not be limited to the following:

   (a) Complete design with sizes, sections, and relative locations of various members, floor levels, column centers and beam spacing shall be dimensioned
   (b) Column loads both for direct and bending stresses shall be tabulated
   (c) Soil value used in design shall be indicated and reports of soil tests shown when required
   (d) Live loads (uniform and concentrated) shall be shown
   (e) Wind stresses when required by the D.C. Code shall be shown
   (f) Working stresses of materials used in the design shall be indicated
   (g) Method of design shall be indicated
   (h) Layout analysis and stress diagrams of trusses shall be shown
   (i) Special system of construction and types of materials which are not specifically covered by the regulations but which have been approved by the Director, DCRA, under authority given in the Code shall be shown

8. When structural plans are filed and certified under the provisions of Section 111.5.1.1 of the D.C. Construction Codes Supplement of 1992 as amended, and it is later found that these plans are in serious conflict with the provisions of BOCA Basic National Building Code/1990, as amended by the D.C. Construction Codes Supplement of 1992, the structural engineer who certified such plans will be referred to the Board of Registration for Professional Engineers, with the recommendation that appropriate action be taken as provided under Section 8, Paragraph (p) of the Professional Engineers Registration Act, Public Law 789, 81st Congress, approved September 19, 1950.
