Washington, DC 20001
Ref: BZA Application Case No. 16611: Proposed Edmund Burke School Expansion

Dear Sirs/Madams:

I am writing in support of the application by the Edmund Burke School for a zoning adjustment to build an addition to their existing school building. I have been a resident of the District for over twenty years and my daughter graduated from Burke in the 1980's.

The District of Columbia is a wonderful place to live and is becoming even better because of the vitality and diversity that it offers its citizens. We have stayed in the District because of the diverse student body, the school's commitment to community service and the strong financial aid program. The proposed new building would be located in an area that is already predominantly commercial and the school administration has shown their commitment to working with the neighborhood by changing the original design to better accommodate the traffic flow.

Many of Burke's students and their families live in the District. Like us, they have chosen to remain in the city because they are committed to living in a diverse urban environment. Many of us are involved in community and civic activities in the city. While most of us could have moved to the suburbs, we have stayed in the District because we like the lifestyle it offers and the educational choices we have. We also care about Burke and we look forward to new space for academic studies, an expanded arts program and a new library, as well as improvements in the currently congested traffic pattern.

I hope that you will give your approval to the application for the school expansion.

Thank you.

Sincerely,

Bonnie B. Himmelman
