Re: Application #16611, Edmund Burke School

Dear Members of the Board:

I have lived in the DC metropolitan area— downtown DC and Takoma Park, Maryland—for twenty-six years. My husband and I have three children and we have operated a small business in these same locations during this period as well.

I write to support Edmund Burke's current school plan for the following reasons:

> The current plan moves the majority of Burke school traffic to Connecticut and off of Upton. This will alleviate long-held traffic issues for parents, students and faculty of Burke and families who live on Upton.
>
> Burke promotes its DC location with great pride, but the ability to offer an excellent academic and physical education program is essential to its success as a business. The additional space for Burke will make it possible for Burke to have an enhanced program in an increasingly competitive private school environment.
>
> The building proposed by Burke will replace run-down properties with a beautiful building and more attractive landscaping and will enhance the neighborhood for all of us.

I would also urge this Commission to consider how the District might improve the process for zoning changes in the future. The current process, (perhaps the ANC component) has encouraged a handful of residents to engage in aggressively offensive behavior, frequently directed at young children, that I believe no person on your Commission would want aimed at a member of your own family. For me, it has felt dishearteningly mean-spirited and divisive. I believe all three of my children will leave Burke with a distorted sense of how a neighborhood and the District deals with change, the unfortunate impression that Upton Street residents actively dislike Burke students, and the sensibility that a lack of civility is an acceptable and effective tool when there are differences of opinion .

We all need a community where people can discuss change without encouraging the most extreme, and often least civil, participants to take over the dialogue.

Thank you.

Terry Clifford
