Re: Application No. 16611

To the Board:

I am writing in support of the Application Number 16611 which supports expansion of Edmund Burke School. I am the mother of a Burke student and a resident of the District.

The new plan for Burke will greatly improve traffic flow on Upton Street NW during morning and afternoon pick up. Architecturally, the proposed building is compatible with the exiting structures and provides visual unity to that block of Connecticut. It also protects the area from more massive nonresidential development that might impose far greater traffic congestion.

Burke is committed to educating students from DC. It is accessible by Metro and serves children who might not be as successful at Deal and Wilson. Improving schools is an important contribution to revitalizing the District and attracting more families to the city. In addition, Burke students work as volunteers at several institutions in the District.

Thank you for considering my letter. Please let me know if you have any questions.

Sincerely,

Elizabeth Salzman Eby
