The Eagle Child Care Center requests your permission to utilize the entire three story building to provide a home away from home for our children. Space available for infants/toddlers, before and after school programs for the children in the neighborhood is very limited. A critical need exist.

DISTRICT OF COLUMBIA
OFFICE OF ZONING
'00 JUL 21 P4:00

Recently, Eagle Child Care Center made major renovations to accommodate more children however this is limited because we are hindered by challenges created by zoning rules and regulations.

To meet these challenges and provide a greater service we would like to renovate the entire building to provide an "age and stage" appropriate quality Child Care Center. Each floor will be designed to a specific age group.

Before and after school programs is in a crisis stage in our neighborhood. There are several schools within the 200 feet of our boundary where underage children from working families attend school every day including Saturdays for some schools. Due to the lack of resources, some of our children end up playing in vacant lots around the neighborhood. Together with the help of our Lord we can make a difference in the life of our youngest.
