#16619

May 9, 2001

Dear Board Members:

As the owner of residential property located in the vicinity of 223 Constitution Avenue, N.E., Washington, D.C., I wish to inform you that I am opposed to the granting of a use variance in regard to application number #16619 submitted by Parry and Romani. The property has been residential for many years and I wish it to remain so.

I have recently spent thousands of dollars on my D.C. located residential property prior to moving back into the district where I have previously lived. I did so after being informed by the District of Columbia that the area is residential. The granting of a variance will lead to an increase in the mostly illegal offices which proliferate the area at present.

Sincerely yours,

Alice B. Casteel

ALICE B. CASTEEL
